ABOUT ME

Aspiring UI/UX Designer and BCA graduate with a strong interest in creating simple, intuitive, and visually engaging digital experiences. Skilled in Figma, wireframing, user flows, prototyping, and UI design. Currently working on a Family Digital Document Wallet project, designing a user-friendly solution for families to organize and manage important digital documents. Also developed JArtistry, an artist website concept focused on artwork exploration and customization. Eager to begin a career in UI/UX design, learn from real-world projects, and contribute to a creative design team.

EDUCATION

MG University - Kottayam, Kerala, India

Bachelor of Computer Applications (BCA)

- Gained a strong foundation in computer applications, programming, web development, and software engineering.
- Learned HTML, CSS, JavaScript, PHP, Python, MySQL, and Django for developing web applications.
- Completed degree projects including Home Haven, a house rental and property selling platform, and Art Hive, an online art selling and customization platform.

PROJECT

Family Digital Document Wallet

UI/UX Design | Figma | Mobile App | Ongoing Project

- Designing a family-focused mobile app for organizing and managing digital documents in one place.
- Created user flows, wireframes, and high-fidelity UI screens using Figma.
- Designed features including document categories, family members, document details, and expiry reminders.

JArtistry

UI/UX Design | Figma | Web Project | Ongoing Project

- Designed a single-artist website for exploring and discovering original artworks.
- Created user-friendly interfaces for artwork browsing, liking, commenting, and interaction.
- Designed a custom artwork request feature for personalized Nettippattam and charcoal drawings.
